

ABOUT THE PROJECT

Food models are important tools for teaching proper nutrition. However, it is often difficult to find food models that complement the palates of our Native Hawaiian and Pacific communities. Based on importance identified in the 2002 Ulu Network Strategic Priorities an Island Food Model committee, consisting of dietitians and nurses from around the state was formed in 2005. After extensive discussion and vendor evaluation 10 island food items were chosen. The Island Food Model Project and the Department of Native Hawaiian Health seeks to assist Ulu Network members in obtaining their own culturally relevant food models.

In addition to support from the Hawaii's EXPORT Center of the Department of Native Hawaiian Health, funding for the manufacture of the food models has been provided by the HMSA Foundation.

HMSA Foundation

The project described is supported by Grant Number P20MD000173, from the National Center of Minority Health and Health Disparities, National Institutes of Health. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of National Institutes of Health.
